# **COMMITTEES OFF** FOR WASHINGTON

They Will Leave at Noon in a Special

VISIT PRESIDENT TO-MORROW.

Richmond Will Be a Mass of Bunting Next Week-The Tournament Will Be a Magnificent Anair-The Bail.

The joint committees that have been chosen to invite President McKiniey and his Cabinet to Riemmond to witness the launching of the Shubrick and the

the launching of the Shubrick and the attendant festivities, will leave on the moon train to-day in a private car to be attached to the regular train.

The Committee, remierced by Senator Martin, Congressman Lamb, Judge Waddill, and possibly Senator Daniel, will visit the White House at 1 o'clock to-morrow.

morrow.

A special Pullman Car will bring the President and his party to hichmond. Indications point to the fact that the expectations of those who have in hand the great Civic Carnival, will be far surpassed. From the start of the big parade to the close of the races, the carnival will be one immense gala time.

Many thousands of visitors are expected in the city during the week. The rail-

in the city during the week. The rail-roads centering here and those with con-nections, have all arranged for one fare for the round-trip, with a coupon at-tached that admits to the tournament, the

ball and the races.

Each of these events will be worth the trip to Richmond; aside from the colossal carrival parade and the launching of the PROFUSE DECORATION.

The city will be decorated profusely of only the business houses, but the Not only the business houses, but the private residences all over will give some evidence of the mainer in which the citizens look upon the prisent era of Richmond's commercial progress. Some of the decorations will be most unique.

The parade will show to the visitors what Richmond already has, and a series of floats will represent its rapid progress during the past three decades.

The ball will be a most magnificent one, and many distinguished guests including the christening party and the notables who may be the city's guests upon that occasion.

occasion. WILL BE PRESENT.

WILL BE PRESENT.

The music will be by the famous Hampton Soldiers' Home Band of thirty pieces, both for concert and dance.

The tig Auditorium will be heated for the occasion and the comfort of the guests will be attended to.

President Lee Todd, of the Tournament Association, returned from the North today. He completed all arrangements in reference to the knights' costumes and reports that a large party from Washington will attend the carnival and the ball.

An effort is below made to get Gen. An effort is being made to get Gen. Fizhugh Lee to de iver the charge to the Knights. The effort will probably be

successful.
THE CARNIVAL PARADE.
Chairman Hawkin's has given out the

following orders:

"We believe there is cause for congratulation among ourselves in that all of our merchants and manufacturers intend doing their duty to our city and its reputation by helping to make the trades parade symbols are and help to prorade a grand exhibition, and help to proclaim to the world our capabilities. The present occasion presents the largest possible opportunity, for representatives of the greatest and most influential journals in the country are in our midst for the purpose of reporting to these papers all we reay do that is worthy of publications. William Brown, a colored driver for the procedure of the greatest and most influential journals in the country are in our midst for the purpose of reporting to these papers all we reay do that is worthy of publications.

for 1899 or in newspapers.
UNIFORMS WANTED.
"The Committee on Parade gladly welcome all organized add uniformed military, all teachers and students from educa-tional Institutions as bodies, but as this is a trades parade, want to impress upon all

organized trades union workers that they are urged to join in the parade. We want to advertise to our government and to the world that our manufacturers are amp' able to handle any contracts that may be given to them. These suggestions if carried out with life and vigor, will be helpful in aftracting attention to Richmond as a manufacturing centre and when we attain this position every mer-chant and resident will be the beneficiary. These are the practical views taken of this celebration by those in charge, and we believe they have been on the and we believe they have been on the minds of the general committee and every sub-committee, even the fireworks, al-though combining the spectacular and beauty possess a large share of character in their historical teaching. Additions to list already announced as taking part in the parade are as follows: Richmond Coffee and Spice Mills, H. W. Rountree Coffee and Spice Mills, H. W. Rountree Trunk and Bag Co., Richmond Broom Works H. Metzger & Son, Larus & Bro., D. Buchanan, H. H. Finke, Cameron & Cameron, Wm. Reinheimer, Richmond Biscuit Co., Julius Sycle & Son, Tragle Medicine Co., J. S. Moore & Son. We are constrained to again urge upon all who contemplate entering the parade to notify promptly Mr. O. A. Hawkins, Chairman Committee on Trades Parade, 1997 E. Cary street, that classification and assignment may not be delayed and made

assignment may not be delayed and made burdensome on that committee on the last few days pror to October 21st." nival are busy sending out their invi-tations, and the Ball Committee will have the ball tickets ready to-day

## SAW SCHLEY RAISED.

Richmond Masons Go to Washington

to See the Event. An event in Masonic his.ory was witnessed by the Richmond Masons who went to Washington Saturday to see Rear Admiral W. S. Sciey made a Master Mason, have returned. They report the initist.on passing and raising, as having been very solemn and impressive. The "work" was done by B. B. French Lodge No. 15 of Wash ngton, under a dispensa tion from Grand Master John H. Small of the District Grand Lodge. The Grand

Master also offic ated.

When the exercises were concluded Adm ral Schley expressed gratification at being a member of the Craft and united himself with his mother lodge. A number of invitations had been sent out and about a thousand Masons from Atlantic coast cities were present.

## BROKE INTO CHURCH

While Services Were in Progress and Stole Money and Jewelry,

A very bold snak thief stole some money and fewelry in the basement of Bt. Mark's Church Sunday while the

Bt. Mark's Church Sunday while the morning services were in progress above. F. Mark's has a vested choir and two of a basement rooms are used as robing-rooms, one for the men and the other for women. The women remove their wraps and the men take off their coats before putting on their vestments. The basement was locked and every window except one was fastened Sunday when the services were over the members of the choir repaired to their respective rooms. It was found that some one had entered the room through the window except.

A horse driven by W. S. Cooke, of Chesterfield county, was taken by the Society for the Prevention of Cruelty to Animals and Cooke was released on his promise to appear at the hearing this morning. Agent Pusey was the officer.

## Mr. McCarthy's Book,

Capt. Cariton McCarthy's book that has been recommended for use in the schools is "Suddler Life, Army Northern Vir-Soldier," as has been stated,

### A SCIENTIFIC REPORT ON COFFEE

Shows It Can be Usad by Some and a Poison to Others.

A gentleman connected with the Newberry Library, Chicago, has gone very carefully through the medical department | derful works. consulting and compiling from the best

lyzant to the nerve centers in the cere-bellum, medulia and spinal cord. "In small doses it quickens the activity of the heart and raises arterial tension. Larger doses often over-stimulate the ness of the head, flashes of light before the eyes, insomnia, reatlessness, and even delirium. Administered in sufficient quantity, it would doubtless prove fatal

"To thousands of people, coffee, of which coffeine is its chemical structure, is therefore a poison. Languor, restlessness and prostration follow as a result in the system when the habit of its continuance is acquired. This is followed by muscular tremor and sometimes dizziness with nervous dynocosia and insomnia; in fact, a train of depressing a'ls frequently not traceable to the beverage which never inebriates, but is in reality the source."

The gentleman concludes his long and very interesting moner on the subject with the statement, "Companies similar to that or the Postum Cercai Co. Ltd. of Battle Creek, are to be multibled and stand as benefactors of the rase. Whatever our nersonal preferences, let us not class these changes in d'étary to necul'ar views and theories, but rather as generally recognized and accented truibs, a valuable accuration of progress and investigation.

scient'fic and philathronic."
The rap'd race lived by American brainworkers has forced them to seek food
and drink that ou'ckly and surely rebuild the exhausted energies, and such people as a rule feel the disastrous effects of a continued use of coffee. It is to jurnish window except one was fastened Sunday. When the services were over the memers of the choir repaired to their respective rooms. It was found that some one and entered the room through the winders and had left it open. Mr. Richard F.

# FREIGHT RATES

The Railroads Want to Have the General Prosperity.

ARTICLES AFFECTED.

A Probable Increase in the Rates on Pig Iron and Billets-An Advance on Coal of Ten Cents a Hundred

The railroads of the country feel that they, too, should share the presperity which now exists, and a general increase in freight rates will probably take place after January 1, 1900.

Before this, however an advance will be made in rates for hauling certain kinds of freight which will take effect November 1st.

In the west the present merchandise rates are considered satisfactory but commodity rates which have been reduced from time to time are now considered too low, The Central Freight Assoclation, according to an Indianapolis report, has approved the action providing another material advance in rates on shipments of pig iron and billets and the articles taking the same rate will go into effect the first of next year and a meeting wal be held in Cleveland, O. October Sist to adjust rates on that basis.

GRAIN RATES GO UP.

This advance will materially affect gram. November ist, the rates on grain and grain products will be advanced 2 cents per hundred weight or to the basis of 21 cents per hundred weight or to the basis. and grain products will be advanced a cents per hundred weight or to the basis of 22 cents per hundred from Chicago to New York, Following the advance in grain rate the export freight on grain from east of the Mississippi points and from Peoria, are made as follows: To Boston, New York and Porthaid, 24 cents per hundred, taking the differential rates on export business via Baltimore, Newport News and Norfolk, making the rate from Peoria 21 cents per hundred. The rate from Peoria 21 cents per hundred.

The rate from Chicago to Baltimore and Virginia points is 19 cents per hundred.

Virginia points is 19 cents per hundred.

An advance in coal rates of 10 cents per hundred pounds was ordered last week from the Pennsylvania, Virginia and Ohio bituminous coal fields and there is a general movement looking to higher rates and an increased revenue. Owing to the scarcity of cars existing it is believed in the west that the shippers will accept any advance as it may lessen the volume of business to an extent that the supply of cars will come nearer the demand.

CARS SCARCE HERE. Local roads have also suffered from the dearth of cars which now exists. Business has been refused, it is stated, for the reason that sufficient cars could not be secured to handle it. There is, however, the belief that the business will not decrease if rates are advanced but will continue and if the present state of affairs continues a general advance in all lines is contemplated to take effect

(From the Breckton Times, Oct. 10, 1829.) o the prosperity of the shoe industry that it will, no doubt, prove a matter of nterest to a large number of people to carn the actual average on ning capacity of each individual employed in the mak-ing of the world-famed Brockton shoe, for illustration: At the factory of the W. L. Douglas Shee Company the pay roll for the week ending Sept. 30, excluding superintendent, foremen, salesmen, and all clerical help, shows the average earnings of the employes, large and small, to be \$15.54 per week. This was not an extraor-

The amount earned per week, however, does not always tell the story of pros-perity. The number of weeks employed each year is the determining factor in the wage earners' prosperity. The Douglas factory has been closed but one week this year, and that for the usual summer stock taking, and it will be closed but three days the latter part of December. This would make but nine days out of is surely as steady work as the most industrious shoemaker could desire.

It is believed that the average pay and the number of days worked is larger at the factory of the W. L. Douglas Shoe Company than at any manufacturing institution in Massachusetts.

Owing to increase business, another

stitution in Massachusetts.
Owing to increased business, another addition is to be made to the Douglas factory. It will be 160 feet long, 40 feet wide, and five stories bigh. It will be ready for occupancy early in December. This addition increases the capacity 25 per cent. The W. L. Douglas Shoe Company has the largest factory in the world, producing an advertised line \$150 and \$3.00 shoes.

Mr. Douglas says that prospect for successful business for Brockton manufacturers was never so good as now, and that collections are better than for years,
